

# EvoDent Model V2.0

Designed for dental models

## Product Description

EvoDent Model V2.0 is specially developed for the manufacturing of dental models. By using this material to print your parts, you may get the added value of excellent precision, good dimensional stability and extremely smooth surface, exquisite fine structure as well. The ease of use, fast building speed, lower printing failure rate and NO color deviation of the material will bring best user experience to you.

## Key Benefits

- High degree of precision
- Extremely smooth surface
- Exquisite detail resolution
- NO color deviation & Easy to use
- Fast to build

## Technical Data

Properties	Typical Value
Appearance	Opaque yellow liquid
Viscosity	~180 cps @ 30 °C
Density	~1.16 g/cm <sup>3</sup> @ 25 °C
Hardness (Shore D), ASTM D2240	82 D
Flexural Strength, ASTM D790	30.0 MPa
Flexural Modulus, ASTM D790	1255 MPa
